

Marriott's Preferred Provider for Employee Listening

Ask

World-class and easy to use

Ask is an employee listening product to enhance your associate's experience and fuel business performance. From building and launching your own survey to finding valuable insights and taking actions that ensure success for your business, Perceptyx provides everything you need to easily build your own listening program.

Why Choose Perceptyx?

Capture employee feedback, everywhere

Invite your people from across the globe to share their insights with surveys in over 160 languages.

Make your job easy

Streamline design and execution with pre-built survey solutions validated by our domain experts.

Use your skills wisely

Build your own items, borrow from our library, or combine both into a single experience.

Delight your people

Reflect your unique culture with branded logos, fonts, and images.

Streamline listening

Create, manage, and analyze multiple listening events in one central location.

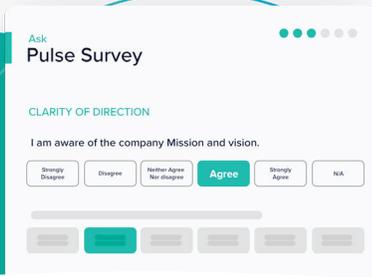

Get started for less

Take advantage of preferred pricing, exclusively for Marriott franchisees.

Shift HR from tactical to strategic

Design a survey for your organization within minutes, leveraging a curated library of validated AES questions to understand key perceptions and behaviors related to the employee experience. Topics include engagement, diversity, equity and inclusion, health and well-being, and much more.

Get authentic insights, from everyone

Improve survey accessibility and response rates through participation via multiple channels. Employees can take the survey on any device using a modern responsive design. Broad access means enhanced inclusion, and this means more authentic insights.

Know what matters, when it matters

Gain real-time perspectives while the survey is live and share final results as soon as it closes. Personalized reports for managers and leaders highlight issues most relevant to their teams.

Use Cases

Employee Engagement

Understand your employee experience, identify barriers to performance, and capture employee sentiment on key issues. When leaders ask—and act on—what matters to their people, their company thrives.

Diversity, Equity, Inclusion, and Belonging

Empower your people to bring their authentic selves to work, celebrate diversity, and ensure that everyone knows they belong. When someone knows they belong, they will want to stay.

Culture Transformation

Understand your people's collective experience of “how things are done around here” and pinpoint challenges and opportunities to create a more meaningful culture that fosters retention, and attracts top talent.

The Future of Work

Help your organization adapt to the new ways of working by co-defining new processes and practices that strengthen the employee experience and drive business outcomes.
